

The present invention provides compounds having the structure represented by Formula I.

$$\begin{array}{c|c}
 & R^{a} & R^{3} \\
 & R^{b} & R^{2} \\
 & R^{2} \\
 & R^{2}
\end{array}$$

Also provided is a method of treating cancer, restenosis, atherosclerosis, or psoriasis or preventing restenosis, and a pharmaceutical composition comprising a compound of Formula I..
